

# Alaska Local and Regional Information

## Workforce Info

### Saint George

St. George is a second class city located on the northeast shore of St. George Island, the southern-most of five islands in the Pribilofs. It is accessible only by air and sea. Saint George is part of the Aleutians West Census Area.

- ♦ The estimated population for 2008 was 112, a loss of about 40 since the 2000 Census.
- ♦ About 75 percent of the resident population 16+ years old worked in 2008.
- ♦ Local Government was the main industry in 2008, employing 60 percent of the area's workers.
- ♦ More workers were employed as Laborers and Freight, Stock, and Material Movers, Hand and Cashiers than any other occupation.

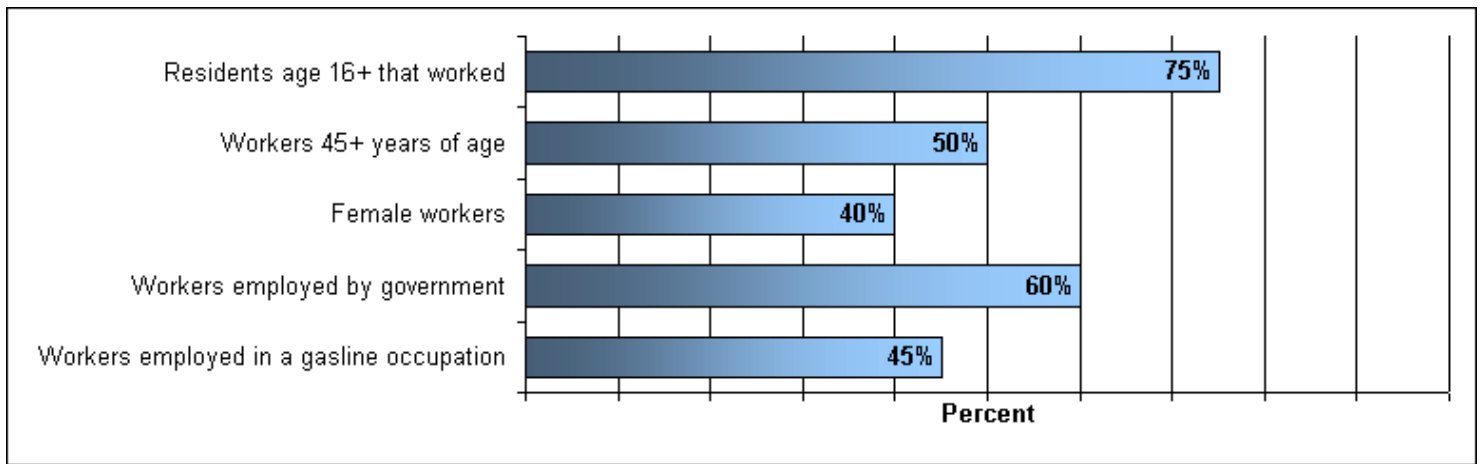

Please note: There is an important distinction between the local/regional employment data and our "standard" employment series. Most of these data reflect totals for area residents only. Total worker counts may be lower than expected in areas with a large number of nonresident workers. The Alaska Permanent Fund dividend file is used to determine the worker's geographic residence. Only Alaska residents (as defined by PFD application) are included in these totals. Also note that federal employees, the military, and the self-employed are not included in these data.

#### Saint George Resident Snapshot (2008)

Working Age Residents		Wages	
Residents age 16+	77	Total wages	\$1,138,044
Resident Worker Characteristics		Resident Workers by Sector	
Total	58	Private	23
Male	35	State government	0
Female	23	Local government	35
Age 45+	29	Quarterly Number of Resident Workers	
Age 50+	24	Peak (3rd) quarter workers	50
		Percent working all 4 quarters	44.8%
